Greetings from the GWTA WA Chapters Newsletter Editor

Happy New Year to you and yours,

May the new year find you more often on the open roads, leading you to new friends and destinations.

SO, Take a Good Look at the Chapter Calendars for all the events and rides. Chapter A has four of their famous Five Aces Ice Cream Rides this year. The Statewide Campout at Squaw Rock, the Anacortes Oyster Run, Olympia Toy Run and various overnight rides are listed. Happy to add any rides the chapters can support. Volunteer to lead a ride or two. New at it? Just ask our ride leaders. AND Keep Your Eyes open for any emails regards events and rides.

While this newsletter represents our WA State Chapters there are many others will read our issues over the year. Share your rides, adventures and tips.

Be Safe and Have Fun,

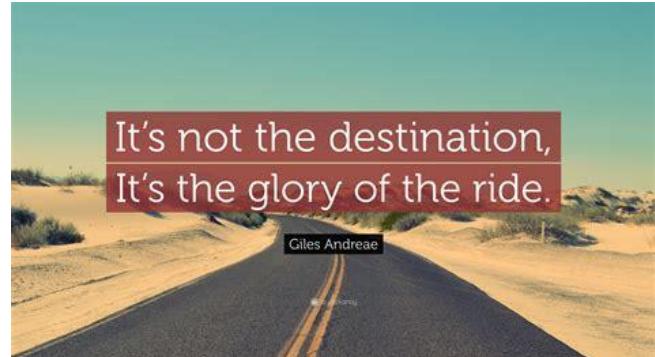

Jocelyn Piechowiak

A Letter from the Chapter Director of WA C.

Hi folks,

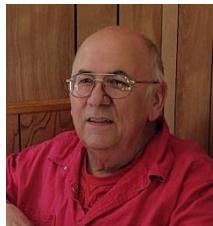

This time of year, we don't normally do a lot of riding, (although several of us were riding on New Year's Day,) but we continue to get together for a dinner or a monthly breakfast meeting, or some other activity. I think it's important to get out and do whatever you can, because none of us know how long we'll be able to continue to do the things we enjoy. This was brought home for me with three funerals just in the month of January. My cousin from Massachusetts who was only 61 passed away suddenly with no warning. The very next week, we buried my aunt in Southern California. This Saturday Jan 24, I plan to attend Don Hatley's memorial service in Burlington. I had a conversation with Don just after the Chapter A November breakfast meeting in which he talked about his plans to be riding again this spring. We all imagine that we will have unlimited time in which to do the various things we want to do. The truth is that none of us know what the future holds.

I've been skiing this week, and it's clear to me that I won't be able to keep skiing forever. It's not that I think I will pass away soon, but the aches and pains that come with old age remind me that physical exertion is more difficult and more painful as I get older. I spent many decades ski racing, but there's a growing gap between what my head thinks I can do, and what my body can physically do. In that spirit I've decided to do as much as I can while I'm still able. I don't want to delay doing things, because I can't predict the future and don't know how long I'll be able to keep pursuing my hobbies. I've proven to myself that there are two things I can't do. I can't read other people's minds, and I can't predict the future.

As long as I can, I plan to keep riding my motorcycle, I plan to keep skiing, and I'm hoping to continue to travel a lot. Riding motorcycles in foreign countries is something I've been doing for the past few years. I'm not waiting for some future event to get out and ride, or ski, or travel, because I don't know what I'll be able to do in the future, and I'd rather do things now, while I'm still able.

In that spirit, I hope that many of you will join me for a number of motorcycle rides this year. If you're reading this, I know you like to ride, and I'd like to encourage you to join us for some great rides (and some good meals with friends,) while we're all still able to participate. Who knows, there may even be some ice cream stops on some rides, and nobody wants to miss those! Also feel free to add other rides to our 2026 calendar. I'll bet we have multiple people who would be happy to join whatever ride you come up with.

Keep the rubber side down,
-Howie (206) 571-3273

In Memory of a Dear Friend, Donald E. Hatley

Mar 2, 1939 ~ Dec 26, 2025

I was introduced to Don by Bob Leaf in June 1999. Pen and I were new Goldwing owners and wanted to meet other Goldwing owners, so we called Don. At the time, he was the Chapter director of GWRRA Chapter WA-A. He was also a Charter Member of GWTA. He had been a member of RA since 1981 and when GWTA was spawned by RA IN 1987, he became a Charter member of that organization as well. He remained a member of TA for many years but was most active with RA throughout the years.

He filled many positions in the organizations, but his most significant accomplishment was mentoring and supporting new riders as well as providing support to the organization. He hosted multiple maintenance day events at his home/garage and was always 100% in for every event. He rode everywhere. If he was not in the lead, he was riding tail gunner and was leading by example.

He was Chapter A director twice, assistant director three times, stores manager for many years as well as newsletter editor for more years than I can remember. Just about everyone in our Chapter A circle called him Dad. To me, Don was my leader, my sounding board for new ideas (good and bad), my maintenance mechanic mentor, my friend and above all, he was my big brother.

Rest in Peace, Brother Don.

New Year's Resolution:

RIDE MORE!

**Dennis Murphy
WA Chapter A Technical Advisor**

First off, I'd like to say how sorry I am about the news of Dons' passing. It was great to see him at the Christmas party and have a great conversation with him.

I'm very happy that he got to spend time with his family on Christmas. He was just a very nice man. Lots of knowledge and wisdom. He'll be sorely missed by his family and friends at GWTA.

So, when I bought my 2015 GW, the left pocket door on the trunk had a screw in it to keep it shut. After taking the screw out and opening it up, I found that the hinge was broken and was surprised to find another key for the bike. But, what to do about the pocket door I wondered.

I was looking on Amazon one night and thought I would see if they had the pockets.

I found the pair for \$88.47 from XMT-MOTO.

I'm thinking, aftermarket, how good is the quality of the part and does it match up with a genuine Honda part? No way to know unless I order them.

They came individually boxed with the boxes taped together. And very well wrapped.

The only thing that I saw that was different from the stock part was the lack of holes for the rubber cord holder. (left side).

There are 4 screws in the trunk that release the pocket. Pull forward on the bottom and down to release it. It takes a little finessing to get it to release. Probably have to open and close the trunk to get it to release and to get the new one in.

I'm pretty happy with the results and while it was a little bit of a pain, it wasn't too bad.

I'd like to thank Mike B. for coming to my house and changing my right muffler on the Wing. I had lost the black cover on mine and got onto EBAY and found another for \$63.00. Good price. He was putting the muffler on while I was tackling the trunk pocket. This was shortly after my surgery and when I say I'm thankful for him coming over to give me a hand, I really mean it. I was hobbling around everywhere.

I'd also like to give thanks to Barry for giving me a ride to the Christmas party and giving me a gift to include in the exchange. I had a great time! Thank You, Barry!

While I've been off, after getting my left knee replaced, I've managed to get quite a bit accomplished. The healing process has gone well. I think it was better and faster than last time. I go back to work on Feb. 9th. It's a very physical job and I think the first week will be a bit of a challenge. But, I know that I can do it.

See you all at the meeting. Dennis

Target Fixation

By: James R. Davis
Motorcycle Safety Consultant and Lecturer

Sometimes we riders tend to minimize the risks we hear about. Take, for example, what every student of the Motorcycle Safety Foundation has heard about - 'target fixation'. 'Fixating' on something means not being able to take your attention (your eyes, for example) away from it. In the case of riding motorcycles, for example, this leads to the phenomena wherein our motorcycles tend to go in the direction we are looking and is usually described with an example familiar to all -- that if you see a pothole in the street ahead of you and don't take your eyes off it you are likely to hit it.

While that is true, it is too trivial an example to get our attention appropriately. We are left with the opinion that 'target fixation' is of trivial concern because we all know that we can, if we try, avoid that pothole.

In the case study, we talk at great length about the tragic consequences possible from thinking that target fixation is a trivial problem. You are strongly encouraged to read that case study. While it is more graphic than most will be comfortable with, I can think of nothing that will better make the case respecting the danger of target fixation.

It is insufficient to simply post the advice that you should avoid target fixation. Saying "don't fixate" is all very well, but once it starts, you need a positive technique to get yourself out in one piece. So, once you are in trouble, use target fixation to save your skin.

Don't look at the oncoming truck/tree/pothole; figure out where you would rather be and fixate on that instead. In fact, those of you that have taken the MSF classes know that "target fixation" is an excellent way to control skids - fixate on a point dead ahead on the horizon, and you'll be well on the way towards automatically correcting most skids.

So....a lot of people ask me why I eat so much ice cream. The truth is, I have a rare condition. My body doesn't produce its own ice cream. It's called Ice Cream Deficiency Disorder. To manage it, I have to supplement it. Daily. Sometimes hourly. It's genetic. July is Ice Cream Deficiency Disorder Awareness Month...so please don't judge me. Just pass the sprinkles.
